FROM: XMT LIQUIDATIONS INC., ITS COURT-APPOINTED LIQUIDATOR (THE "LIQUIDATOR")

As previously reported, Excapsa concluded its settlement with Blanca Games Inc. on March 31, 2011 and received the \$2 million settlement payment. The Liquidator is processing a distribution in the approximate amount of US \$7 million and these funds will be released shortly..

As part of the final settlement, Excapsa, through its subsidiary, Aspacxe Holdings Inc., acquired the remaining interest of the Blast Off/Tokwiro Group in the gaming software (the Blast Off/Tokwiro Group had retained a residual interest to use the software for internal purposes which was relinquished). Previously, the Liquidator had indicated an intention to explore opportunities to license the software and one licensing arrangement was put in place but is not currently generating revenue. In light of the change of circumstances, the Liquidator now intends to explore opportunities to dispose of the gaming software. To that end, shareholders are asked to contact the Liquidator if they have any interest, or know of anyone who might have any interest, in acquiring the gaming software.

Dated this 20th day of April, 2011.
